### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: None of the prior art of record teaches or suggests a stretch blow molding apparatus having a stretch rod that is controlled by a magnetic device comprising a fixed magnetic guide placed around the axis of a carousel and a slide having a magnetic block that is integral with the drawing or stretch rod such that the block and the guide have a magnetic coupling. The closest prior art (Kauffman et al 4,141,680) discloses a stretch pin actuating means in the form of a cam and cam follower for controlling the movement of the stretch pin, but the reference neither discloses nor suggests using a fixed magnetic guide in combination with slide having a magnetic block for the actuation of a stretch pin.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
